BRIEF ABSTRACT OF LETTER.

Solicits sanction to the proposal of the Sanitary Board to levy a Special Sanitary cess in Robertsonpet. to make satisfactory arrangements for conserving the place.

NOTES AND ORDERS.

The Sanitary Board have not stated whether with their present income they can or can not make satisfactory arrangements but the main ground on which they recommend the levy of Sanitary Cess is to exercise better control over scavengers.

LB File No. 26.1 of 1914

Serial
No.

This is correct & of
the same nature.
C. S.

The Sanitary authorities have power
to ~~en~~ force the removal of night
soil every day from private buildings
and a vigilant supervising staff
could be able to prevent the
disposal of night soil by the private
scavengers in any manner they choose.
If the inhabitants of the area
consider that the scavenging work
~~should be done~~ being done by the
agency of the Sanitary Board a more
satisfactory arrangement for which
they are willing to pay there would be
no objection to the levy of the cess.
Sec 35(b) of the Mines Regn lays down
that the San Bd may with the sanction of
Govt levy ~~such~~ cess within the area as a
Municipal Council would be competent to
levy under the law in force relating to
Municipalities. The law in force relating to
Municipalities (The Ml Regn) requires that
no new tax or cess shall be levied without
publishing the proposal and inviting
public opinion to regarding the same.
So may the President be asked informed that
the procedure prescribed in Sections 59 & 60
of the Ml Regn may be gone through &
further proposals submitted.

To the Presdt. Sanitary Bd. H.S. 7.

W^o 371. dt. 16.7.15-

Request to renew his proposals
for the imposition ^{new} of taxes referred to
in 874, after observing the preliminary
procedure prescribed in Section 5
and 6 of the Mysore Int. Regn of 1906.

of the balance may be utilized for the purchase of sanitary carts.
A copy of the letter of the Medical Officer of Health is enclosed for perusal.

3. The question of levying a conservancy cess was considered by a Sub-Committee appointed by the Sanitary Board. The Sub-Committee resolved that it be strongly recommended that the suggestion of the Medical Officer of Health be given effect to.

4. The subject was discussed at the last meeting of the Board held on 28rd April 1915, when it was resolved that a special Sanitary cess be levied in Robertsonpet on the rental value of houses, as stated in Appendix F of the Municipal Account Manual.

5. The Sanitary Board can, with the sanction of Government, levy the proposed special sanitary cess under Section 35 Clause 2 b of the Mysore Mines Regulation 1906.

6. Under the circumstances explained, as the levy of the special sanitary cess will enable the Board to employ scavengers who will be under public control and thereby cheapen and render more efficient the cleansing of private latrines, I have the honour to request that the Board's proposal be approved and sanction of Government obtained for the levy of the special sanitary cess in Robertsonpet as resolved by the Board.

7. It is not quite clear if, for the levy of the cess in question, the procedure described in Section 59 and 60 of the Municipal Regulations is necessary. Should the Government consider such steps necessary, they will be taken and further proposals submitted.

I have the honour to be,

Sir,

Your most obedient servant

S. K. N. Rao

For President,

By Sanitary Board, M.G.P.

Kolar Gold Fields.

Extract from the Proceedings of the Sixth (Ordinary) Meeting of the Kolar Gold Fields, Sanitary Board, held on Friday the 23rd April 1915, at 4 P.M., in the Sanitary Board Office at Champion Reefs.

W. S. K. N. R.

For President,

Ch

Sanitary Board, K. G. C.

Enc^{to} LB 261-14-1

Copy of letter No. 418 dated 11th November 1914, from the Medical Officer of Health, Kolar Gold Fields, to the Vice President, Sanitary Board, Kolar Gold Fields.

I have the honour to state that, in Robertsonpet removal and disposal of night soil in private houses is not satisfactory. At present, the cleaning of the privies is entrusted by the house-owners to private scavengers who do not clean the latrines every day and allow the accumulation of night soil to go on for some days and it so happens that these private scavengers sometimes dispose of this filth by throwing it in the nearest Dust bin or in the open ground or nullas close by. It is very desirable that the night soil should be removed at least once a day and properly disposed of and as long as the private agency is allowed to continue it will not be easy to check these scavengers who are not under control. I therefore propose that a conservancy cess may be levied on every house-hold. From a Census taken there are 1216 houses under occupation including the Bungalows and those occupied by Police staff of Robertsonpet. As people find it difficult to get their scavengers to clean their privies every day, I understand that each house-hold would not find it hard to pay annas 2 per mensem as Conservancy Cess. Taking one thousand as independent house-holds, a sum of Rs. 125/- may be collected every month and with this not less than ten sweepers may be employed to clean the privies and a portion of the balance may be utilized for the purchase of Sanitary Carts. The collection of the Cess may be entrusted to the Revenue authorities as in the case of Bohatarfa.

Sd. J. V. Mascarenha,

Medical Officer of Health.
